Nouveau Contour Cosmetics

Permanent Make-Up is ideal for anyone who would like to look and feel great without having to spend hours in front of a mirror. Permanent cosmetics are a type of tattooing which is applied to the second layer of skin which results in a wonderful shadow of colour that looks like perfectly applied make-up. You will always look your best, morning, noon and night!

Microblading - Eyebrow Embroidery

The Japanese Method of Semi-Permanent Brows is a manual method which is relatively new to the UK. It is considered to be semi-permanent, as it is compared to the traditional hair stroke tattoo machine technique. Both methods are ideal for anyone wishing to enhance their look without anyone noticing. Liz has been a semi permanent technician for 17 years - whichever method we decide to use or combine, we look forward to creating wonderful results for you!

*Eyelash, Eye Brow definition and Lip Enhancement available
All semi-permanent treatments are recommended to have a colour refresh/top up from 6 - 18 months
A patch test is required*

A consultation may be combined with treatment
